CRANFORD

Local artist to exhibit work at national show

Theodosia Tamborlane's "Fleurs Des Temps" and "Nature's World" were chosen for the Florida West Arts National Juried Exhibition 2010.

The Cranford-based artist's work will be shown along with paintings, mixed media, and other presentations from artisans across the United States in the exhibition which runs tomorrow through Dec. 16.

"Theodosia's two works were selected because each rate high in the different

elements typically used to judge what is quality art," Patrick J. Distasio, president of Florida West Arts Inc., said. "This is especially true with her ability to create a successful composition."

Of the 300 submissions, 86 were selected for the exhibition. For more information on the show, go to www.floridawestarts.com.
